ENGINEERING GEOLOGY

www.elsevier.com/locate/enggeo

Subject Index Volume 67, 2002/2003

Adapazari
Liquefaction; Building performance; Building geometry; Foundation type 297
Adriatic coast
Landslide; Clay; Geostructure; Mechanism; Italy 255
Air breakage
Mudrocks; Swelling; Cyclic wetting and drying; Mudrock texture 97
Anisotropy
Ultrasonic; Gas migration; Dynamic and static elasticity; Rheology; Strength 353
Ankara clay
Predictive equations; Swell anisotropy; Swelling percent; Swelling pressure; $w_{max24.72}$ test 331

Back numerical analysis
State of stress; Principal stress; Slope stability; CSG technique; CCBO technique; Forward numerical analysis 201
Brazilian test
Calcite; Crinoidal limestone; Fracture; Rock mechanics; Structure 109
Building geometry
Liquefaction; Building performance; Adapazari; Foundation type 297
Building performance
Liquefaction; Adapazari; Building geometry; Foundation type 297

Calcarenite
Texture; Porosity; Image analysis 5
Calcite
Crinoidal limestone; Fracture; Brazilian test; Rock mechanics; Structure 109
CCBO technique
State of stress; Principal stress; Slope stability; CSG technique; Back numerical analysis; Forward numerical analysis 201
Classification
Rock mass; Continuous rating; Geomechanics; RQD 269
Clay
Landslide; Consolidation; Settlement; Predictions; Measurements 185
Landslide; Geostructure; Mechanism; Adriatic coast; Italy 255
Clay shale
Probability distribution; Shear strength; Variability 169
Climate change
Glaciation; Nuclear waste repository; Faults; Shearing; 3D modelling 39
Coal mining
Jhama; Dyke; Rebound number; Cuttability; Strength 127
Coefficient of volume compressibility
Land subsidence; Global positioning system (GPS); Ground water; Niigata Prefecture, Japan 379
Cone penetration test
Underconsolidated marine clay; Field vane shear test; Triaxial test; Undrained shear strength 233
Confluent sewerage works
Marsh gas; Tunnel safety; Shield; Shanghai 373
Consolidation
Landslide; Clay; Settlement; Predictions; Measurements 185
Continuous rating
Classification; Rock mass; Geomechanics; RQD 269
Correlation
SPT; *N*-value; CPT; q_c-value; UAE 219
CPT
SPT; *N*-value; q_c-value; Correlation; UAE 219
Crinoidal limestone
Calcite; Fracture; Brazilian test; Rock mechanics; Structure 109
CSG technique
State of stress; Principal stress; Slope stability; CCBO technique; Back numerical analysis; Forward numerical analysis 201
Cuttability
Coal mining; *Jhama*; Dyke; Rebound number; Strength 127

Cyclic wetting and drying
Mudrocks; Swelling; Mudrock texture; Air breakage 97

Deep geological disposal
Radioactive waste; North Sea; Petroleum geology 139
Deformation
Evaluation monitoring; Tunnel; Kızlaç 309
3D modelling
Climate change; Glaciation; Nuclear waste repository; Faults; Shearing 39
double-plane sliding
Stereographic projections; Kinematic analysis; Failure mechanisms, single-plane sliding 321
Dyke
Coal mining; *Jhama*; Rebound number; Cuttability; Strength 127
Dynamic and static elasticity
Ultrasonic; Anisotropy; Gas migration; Rheology; Strength 353

Engineering geological characteristics
Expansive soil; Type; Origin; Property index 63
Evaluation monitoring
Tunnel; Kızlaç; Deformation 309
Expansive soil
Type; Origin; Property index; Engineering geological characteristics 63
Explosions
Tunnels; Tunnel safety 1

Failure mechanisms, single-plane sliding
Stereographic projections; Kinematic analysis; double-plane sliding 321
Faults
Climate change; Glaciation; Nuclear waste repository; Shearing; 3D modelling 39
Field vane shear test
Underconsolidated marine clay; Cone penetration test; Triaxial test; Undrained shear strength 233
Flexible supports
Tunnel; Squeezing; Thrust zone; Heavy support 73
Fluidization
Landslips; Friction lines; Travel distances; Topography; Landslide volume 243
Forward numerical analysis
State of stress; Principal stress; Slope stability; CSG technique; CCBO technique; Back numerical analysis 201
Foundation type
Liquefaction; Building performance; Adapazari; Building geometry 297
Fracture
Calcite; Crinoidal limestone; Brazilian test; Rock mechanics; Structure 109
Friction lines
Landslips; Travel distances; Fluidization; Topography; Landslide volume 243
Fuzzy sets
Slope stability; Uncertainty; Variability; Reliability Index 391

Gas migration
Ultrasonic; Anisotropy; Dynamic and static elasticity; Rheology; Strength 353
Geology
Geotechnical investigation; Rockfall simulation; Rock mass classification; Urgent stabilization works 281
Geomechanics
Classification; Rock mass; Continuous rating; RQD 269
Geostructure
Landslide; Clay; Mechanism; Adriatic coast; Italy 255
Geotechnical investigation
Geology; Rockfall simulation; Rock mass classification; Urgent stabilization works 281
Glaciation
Climate change; Nuclear waste repository; Faults; Shearing; 3D modelling 39
Global positioning system (GPS)
Land subsidence; Ground water; Coefficient of volume compressibility; Niigata Prefecture, Japan 379
Ground water
Land subsidence; Global positioning system (GPS); Coefficient of volume compressibility; Niigata Prefecture, Japan 379

Heavy support
Tunnel; Squeezing; Thrust zone; Flexible supports 73

Image analysis
Calcarenite; Texture; Porosity 5
Italy
Landslide; Clay; Geostructure; Mechanism; Adriatic coast 255

Jhama
Coal mining; Dyke; Rebound number; Cuttability; Strength 127

Kinematic analysis
Rock slope; Single-faced slope; Multi-faced slope; Stereographic projection 51

Stereographic projections; Failure mechanisms, single-plane sliding; double-plane sliding 321
Kızlaç
Evaluation monitoring; Tunnel; Deformation 309

Landslide
Clay; Consolidation; Settlement; Predictions; Measurements 185Clay; Geostructure; Mechanism; Adriatic coast; Italy 255
Landslide volume
Landslips; Friction lines; Travel distances; Fluidization; Topography 243
Landslips
Friction lines; Travel distances; Fluidization; Topography; Landslide volume 243
Land subsidence
Global positioning system (GPS); Ground water; Coefficient of volume compressibility; Niigata Prefecture, Japan 379
Liquefaction
Building performance; Adapazari; Building geometry; Foundation type 297

Marsh gas
Tunnel safety; Shield; Confluent sewerage works; Shanghai 373
Measurements
Landslide; Clay; Consolidation; Settlement; Predictions 185
Mechanism
Landslide; Clay; Geostructure; Adriatic coast; Italy 255
Mudrocks
Swelling; Cyclic wetting and drying; Mudrock texture; Air breakage 97
Mudrock texture
Mudrocks; Swelling; Cyclic wetting and drying; Air breakage 97
Multi-faced slope
Kinematic analysis; Rock slope; Single-faced slope; Stereographic projection 51

Niigata Prefecture, Japan
Land subsidence; Global positioning system (GPS); Ground water; Coefficient of volume compressibility 379
North Sea
Radioactive waste; Deep geological disposal; Petroleum geology 139
Nuclear waste repository
Climate change; Glaciation; Faults; Shearing; 3D modelling 39

N-value
SPT; CPT; q_c-value; Correlation; UAE 219

Origin
Expansive soil; Type; Property index; Engineering geological characteristics 63

Petroleum geology
Radioactive waste; Deep geological disposal; North Sea 139
Porosity
Calcarenite; Texture; Image analysis 5
Predictions
Landslide; Clay; Consolidation; Settlement; Measurements 185
Predictive equations
Ankara clay; Swell anisotropy; Swelling percent; Swelling pressure; $w_{max24.72}$ test 331
Principal stress
State of stress; Slope stability; CSG technique; CCBO technique; Back numerical analysis; Forward numerical analysis 201
Probability distribution
Clay shale; Shear strength; Variability 169
Property index
Expansive soil; Type; Origin; Engineering geological characteristics 63

q_c-value
SPT; *N*-value; CPT; Correlation; UAE 219

Radioactive waste
Deep geological disposal; North Sea; Petroleum geology 139
Rebound number
Coal mining; *Jhama*; Dyke; Cuttability; Strength 127
Reliability Index
Slope stability; Uncertainty; Variability; Fuzzy sets 391
Rheology
Ultrasonic; Anisotropy; Gas migration; Dynamic and static elasticity; Strength 353
Rockfall simulation
Geotechnical investigation; Geology; Rock mass classification; Urgent stabilization works 281
Rock mass
Classification; Continuous rating; Geomechanics; RQD 269
Rock mass classification
Geotechnical investigation; Geology; Rockfall simulation; Urgent stabilization works 281

Rock mechanics
Calcite; Crinoidal limestone; Fracture; Brazilian test; Structure 109
Rock slope
Kinematic analysis; Single-faced slope; Multi-faced slope; Stereographic projection 51
RQD
Classification; Rock mass; Continuous rating; Geomechanics 269

Seismic behavior of subduction zone
Seismic energy release; Seismicity of Taiwan; Seismic gap 17
Seismic energy release
Seismic behavior of subduction zone; Seismicity of Taiwan; Seismic gap 17
Seismic gap
Seismic energy release; Seismic behavior of subduction zone; Seismicity of Taiwan 17
Seismicity of Taiwan
Seismic energy release; Seismic behavior of subduction zone; Seismic gap 17
Settlement
Landslide; Clay; Consolidation; Predictions; Measurements 185
Shanghai
Marsh gas; Tunnel safety; Shield; Confluent sewerage works 373
Shearing
Climate change; Glaciation; Nuclear waste repository; Faults; 3D modelling 39
Shear strength
Clay shale; Probability distribution; Variability 169
Shield
Marsh gas; Tunnel safety; Confluent sewerage works; Shanghai 373
Single-faced slope
Kinematic analysis; Rock slope; Multi-faced slope; Stereographic projection 51
Slope stability
State of stress; Principal stress; CSG technique; CCBO technique; Back numerical analysis; Forward numerical analysis 201
Uncertainty; Variability; Reliability Index; Fuzzy sets 391
SPT
N-value; CPT; q_c-value; Correlation; UAE 219
Squeezing
Tunnel; Thrust zone; Flexible supports; Heavy support 73
State of stress
Principal stress; Slope stability; CSG technique; CCBO technique; Back numerical analysis; Forward numerical analysis 201
Stereographic projection
Kinematic analysis; Rock slope; Single-faced slope; Multi-faced slope 51
Stereographic projections
Kinematic analysis; Failure mechanisms, single-plane sliding; double-plane sliding 321
Strength
Coal mining; *Jhama*; Dyke; Rebound number; Cuttability 127Ultrasonic; Anisotropy; Gas migration; Dynamic and static elasticity; Rheology 353
Structure
Calcite; Crinoidal limestone; Fracture; Brazilian test; Rock mechanics 109
Swell anisotropy
Ankara clay; Predictive equations; Swelling percent; Swelling pressure; $w_{max24,72}$ test 331
Swelling
Mudrocks; Cyclic wetting and drying; Mudrock texture; Air breakage 97
Swelling percent
Ankara clay; Predictive equations; Swell anisotropy; Swelling pressure; $w_{max24,72}$ test 331
Swelling pressure
Ankara clay; Predictive equations; Swell anisotropy; Swelling percent; $w_{max24,72}$ test 331

Texture
Calcarenite; Porosity; Image analysis 5
Thrust zone
Tunnel; Squeezing; Flexible supports; Heavy support 73
Topography
Landslips; Friction lines; Travel distances; Fluidization; Landslide volume 243
Travel distances
Landslips; Friction lines; Fluidization; Topography; Landslide volume 243
Triaxial test
Underconsolidated marine clay; Cone penetration test; Field vane shear test; Undrained shear strength 233
Tunnel
Squeezing; Thrust zone; Flexible supports; Heavy support 73
Tunnels
Explosions; Tunnel safety 1

Tunnel
Evaluation monitoring; Kızlaç; Deformation 309
Tunnel safety
Tunnels; Explosions 1
Marsh gas; Shield; Confluent sewerage works; Shanghai 373
Type
Expansive soil; Origin; Property index; Engineering geological characteristics 63

UAE
SPT; *N*-value; CPT; q_c-value; Correlation 219
Ultrasonic
Anisotropy; Gas migration; Dynamic and static elasticity; Rheology; Strength 353
Uncertainty
Slope stability; Variability; Reliability Index; Fuzzy sets 391
Underconsolidated marine clay
Cone penetration test; Field vane shear test; Triaxial test; Undrained shear strength 233
Undrained shear strength
Underconsolidated marine clay; Cone penetration test; Field vane shear test; Triaxial test 233
Urgent stabilization works
Geotechnical investigation; Geology; Rockfall simulation; Rock mass classification 281

Variability
Clay shale; Probability distribution; Shear strength 169
Slope stability; Uncertainty; Reliability Index; Fuzzy sets 391

$w_{max24,72}$ test
Ankara clay; Predictive equations; Swell anisotropy; Swelling percent; Swelling pressure 331
